## SPECIAL PRICE-LIST FOR MARKET-GARDENERS AND FLORISTS

1920

One Hundred and Nineteenth Annual Edition

United States Food Administration  
License Number G-23974

**T**HIS is our one hundred and nineteenth successive Annual Catalogue. We are growers of and dealers in **High-class Reliable Seeds** only. Quality, with us, is the first consideration.

**Orders** should be written on our order sheet or on a blank sheet separate from letter, preferably in ink. Those from new customers should be accompanied by a remittance in the form of a Post Office or Express Money Order, or Bank Bills.

**Prices.** The prices quoted are net, and do *not* include *free transit*, except for seeds in packets, ounces, and quarter-pounds.

**Seeds by Mail or Express.** If wanted by mail, add postage at zone rates, particulars of which can be obtained from your Postmaster. By special arrangement with the express companies, we can ship seeds and bulbs at a reduction of 25 per cent from the regular rates. *We do not guarantee the safe arrival of goods sent by mail*; it is rarely however, that they fail to reach their destination. Seeds may be sent C. O. D. when 25 per cent of the amount is remitted with order. Potatoes, Onion Sets, Roots, Fertilizers, and Insecticides cannot be sent C. O. D.

**Name, Address, etc.** We beg our correspondents to give us **on each order the correct name and address**; also, to indicate *very precisely* the means of carriage which they prefer, whether by **Express, Freight or Mail**, and the office or railroad station which best serves their locality. In case these directions are not followed out, or if they are not sufficient, we shall ourselves choose the most advantageous and convenient means, but entirely at the risk of the customer.

*J. M. Thorburn & Co. give no warranty, express or implied as to the description, quality, productiveness, or any other matter of any seeds, bulbs or plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.*

**J. M. THORBURN & CO.**  
**53 Barclay Street, through to 54 Park Place**  
**NEW YORK**

# VEGETABLE SEEDS

Owing to transportation difficulties, some varieties of seeds may again be late in reaching us this season. Under the circumstances it will be well, therefore, to state when ordering, whether we are at liberty to substitute or not. Customers can depend upon our using our best judgment in substituting other equally good sorts for those ordered which we may not be able to supply.

All prices subject to change without notice

Please notice that we pay postage or express charges on all seeds in packets, ounces and quarter-pounds

## ARTICHOKE

	Oz.	1/4lb.

## LAWN GRASS SEED MIXTURE

### The Thorburn Lawn Grass Seed

Many of the finest lawns in America were produced from this mixture. It is composed exclusively of permanent grasses that make a finer and thicker turf the older they become, and yet give a rich greensward in three or four weeks from the time of sowing. Sow at the rate of 80 to 100 pounds to the acre. \$32 per 100 lbs.

#### THORBURN'S LAWN GRASS SEED FOR THE SOUTH

A mixture of grasses that stand extremes of heat and drought well, will grow and thrive vigorously under these conditions and are, therefore, peculiarly adapted for southern lawns. \$33 per 100 lbs.

#### THORBURN'S GRASS MIXTURE FOR UNDER TREES AND SHADY SPOTS ON LAWNS

A mixture of fine grasses that thrive in shaded situations, under trees or close to walls. \$36 per 100 lbs.

#### THORBURN'S LAWN-RESTORING GRASS SEED

A mixture of Grasses peculiarly suited to take firm hold and grow quickly on hard, worn-out, or burned spots. The best time to resow such places is very early in the spring, but seed may also be sown with good results in the fall from the first of September to the first of October. Some **Lawn-restoring Grass Seed** should also be sown before every summer rain on thin places. \$36 per 100 lbs.

#### THORBURN'S LAWN GRASS MIXTURE FOR THE SEASHORE

A mixture of fine grasses peculiarly suited to seaside lawns. \$32 per 100 lbs.

#### TERRACE LAWN GRASS SEED

A mixture of fine stoloniferous grasses peculiarly adapted to terraces. \$36 per 100 lbs.
